Parents and their children are also enjoying time off together whilst attending different classes in the morning. Lessons in the Junior Course emphasize on spoken English and communication activities which help students build their confidence in using the language outside the classroom.

Isle of MTV Malta - 08 July 2009

The Isle of MTV is one of the highlights of MTV's European summer music scene - one of the coolest and most eclectic outdoor live music events. For the third time running, the islands will be the wonderful background to such a high-profile musical event. This year's line up will feature The Black Eyed Peas, Lady Gaga, Metro Station and Esmee Dentres. The artists will perform live in concert in the spectacular Il-Fosos Square in Floriana in front of 50,000 people. Entrance is free.

The Blue Lagoon - Comino

Situated in the tiny isle of Comino (only 3.5 sq kms), the Blue Lagoon is a sheltered inlet of shimmering aquamarine water. This stunning location has appeared on screen many times, most recently for a diving scene featuring Madonna in Swept Away and a spear fishing scene set in ancient times for the mini-series Helen of Troy. The Lagoon, together with the isle's other bays - St Mary's and St Nicholas' - with their crystal clear waters, make Comino the ideal choice for most kinds of water sports, especially diving and snorkeling. Day cruises stop for swimmers to enjoy the lagoon's crystal waters, and the tranquil island attracts walkers who come to enjoy the craggy coastline.
